NEW INTERESTING THINGS I HAVE LEARNED THROUGH THIS WORKSHOP:

35

Is I manage to share the views of my experience in mathematics and teaching in general as well as learning new ways to tackle some of the topics I was struggling with.

ANY OTHER COMMENTS OR SUGGESTIONS:

It would like to have this kind of workshops at least twice in a year so that we share more info with the teachers from abroad countries that help us to have more information and experience in how to teach the topics, based on saying this because this helps us in terms of comparative education. Since we compare our teaching with teaching of other countries.
